NeoLiv enters agreement to develop land in Maharashtra; project development value at around Rs 600 crore

Synopsis

NeoLiv, founded by Mohit Malhotra, is set to develop a 47-acre mixed-use community in Khopoli, Maharashtra, with a gross development value of approximately Rs 600 crore. This project, backed by UHNI investors and a SEBI-regulated AIF fund, aims to capitalize on the growing real estate hub driven by infrastructure developments.

NeoLiv, a residential investment and development platform, has entered into management agreement for developing 47 acres of prime land in Khopoli, Maharashtra.

The development, with a projected gross development value of around Rs 600 crore, will offer mix use community comprising of premium villa and plots and retail convenience for lifestyle.

“This is one of our largest foray in the most sought-after micro-market in the country. Backed by UHNI investors through our SEBI-approved fund we aim to deliver residential developments across the country,” said Mohit Malhotra, founder and CEO of NeoLiv.

Panvel-Khalapur-Khopoli belt has emerged as the **real estate** hub in MMR due to infrastructure push and economic boost with proximity to Mumbai Trans Harbour Link, highways like Mumbai-Pune and Mumbai Goa as well as proximity to Navi Mumbai International Airport.

Founded by Mohit Malhotra, the former managing director and chief executive of **Godrej Properties**, NeoLiv projects are backed by a SEBI-regulated AIF Fund, ensuring financial security and timely project completion for customers.

In March 2024, the first scheme of its SEBI registered category II alternative investment fund, ‘Inliv Real Estate Fund’ of Neoliv completed initial closing with above Rs 300 crore of its maiden fund raise.

The funds is utilized to develop middle-income residential properties in Mumbai MMR, Delhi NCR, and plotted opportunities in Tier 2 cities.

According to Anarock data, affordable housing’s share of demand has shrunk to just 17% in H1 2025, down from 40% in the same period in 2020. At the same time, the supply of affordable housing has nosedived in the past two years across the top seven cities, from 18% in H1 2023 to just 12% in H1 2025. Back in 2019, affordable homes accounted for 40% of new launches.

The survey shows that homes priced between Rs 90 lakh and Rs 1.5 crore have emerged as the “most favoured” option for more than 36% of prospective buyers, pointing to a shift toward premium and luxury properties, while 25% prefer homes priced between Rs 45 lakh and Rs 90 lakh.

NeoLiv to Develop 47-Acre Mixed-Use Villa Project in Khopoli

NeoLiv expands into MMR with a Rs600 crore marquee development near Imagicaa and Navi Mumbai Airport.

NeoLiv, one of India's leading fund-led developers, has entered into a management agreement to develop 47 acres of prime land in Khopoli, Maharashtra. The project marks NeoLiv's entry into the fast-growing Mumbai Metropolitan Region (MMR), with a focus on creating a premium mixed-use villa community.

Located just an hour from the upcoming Navi Mumbai International Airport and close to the Mumbai Trans Harbour Link, the site offers excellent connectivity and proximity to major entertainment hubs like Imagicaa Theme Park. The development is expected to have a gross value of Rs600 crore and will feature luxury villas, plotted developments, and retail spaces designed to meet modern lifestyle needs.

The project promises a holistic living experience, with expansive green views, world-class amenities, and what's being billed as the region's first theme-based residential concept. An internationally designed clubhouse will anchor the community, offering residents a secure, sustainable, and thoughtfully curated environment.

Mohit Malhotra, Founder and CEO of NeoLiv, called the agreement a "significant milestone," noting that the company is backed by UHNI investors through a SEBI-approved fund and led by a team with over 100 years of combined experience. "We're committed to delivering exceptional living experiences that set new benchmarks," he said.

The Panvel-Khalapur-Khopoli belt has emerged as one of MMR's most promising corridors, driven by infrastructure upgrades and economic growth. With access to key highways and upcoming transport links, NeoLiv's latest venture is poised to tap into rising demand for premium housing in well-connected suburban pockets.

NeoLiv Signs Management Agreement for 47-Acre Mixed-Use Villa Project in Khopoli Near Mumbai

NeoLiv signs management agreement for 47-acre mixed-use villa project in Khopoli near Mumbai, targeting ₹600 crore revenue with luxury residential and lifestyle amenities.

NeoLiv, a Mumbai-based fund-led real estate developer, announced on September 11 that it has signed a management agreement to develop a 47-acre mixed-use villa project in Khopoli, located within the Mumbai Metropolitan Region (MMR). The project is expected to generate a revenue potential of ₹600 crore, reflecting the company's strategic expansion into a fast-growing micro-market near Mumbai.

The upcoming development will feature a premium residential community comprising villas and plotted residences, along with retail and lifestyle amenities designed to enhance the living experience. NeoLiv stated that the project will have a gross saleable area (GSA) of 0.36 million square feet and a total development cost of ₹150 crore.

The company plans to integrate lifestyle-focused amenities, including the region's first theme-based development and an internationally designed club. This positioning aims to attract high-net-worth individuals (HNIs) and investors seeking luxury residential options within the MMR.

NeoLiv described the agreement as a major milestone in its expansion into one of the most sought-after micro-markets in the country. **Mohit Malhotra, Founder and CEO of NeoLiv**, noted that the project is backed by UHNI investors through the company's SEBI-approved fund and will be executed by a team with over a century of combined experience. Under his leadership, NeoLiv aims to deliver high-quality residential experiences that are designed to set new benchmarks in the villa and plotted development segment.

The Khopoli region has witnessed increasing interest from developers due to its improving connectivity and upcoming infrastructure projects. The Panvel–Khalapur–Khopoli belt is strategically located near the Mumbai Trans Harbour Link, major highways such as the Mumbai–Pune and

Mumbai–Goa expressways, and the Navi Mumbai International Airport. These developments are expected to enhance accessibility and drive demand for residential projects in the area.

NeoLiv's announcement follows its August 2025 acquisition of a 17.5-acre land parcel in Khopoli for a plotted development and villas project with a development cost of ₹150 crore. This indicates the company's continued focus on scaling its presence in emerging micro-markets within the MMR.

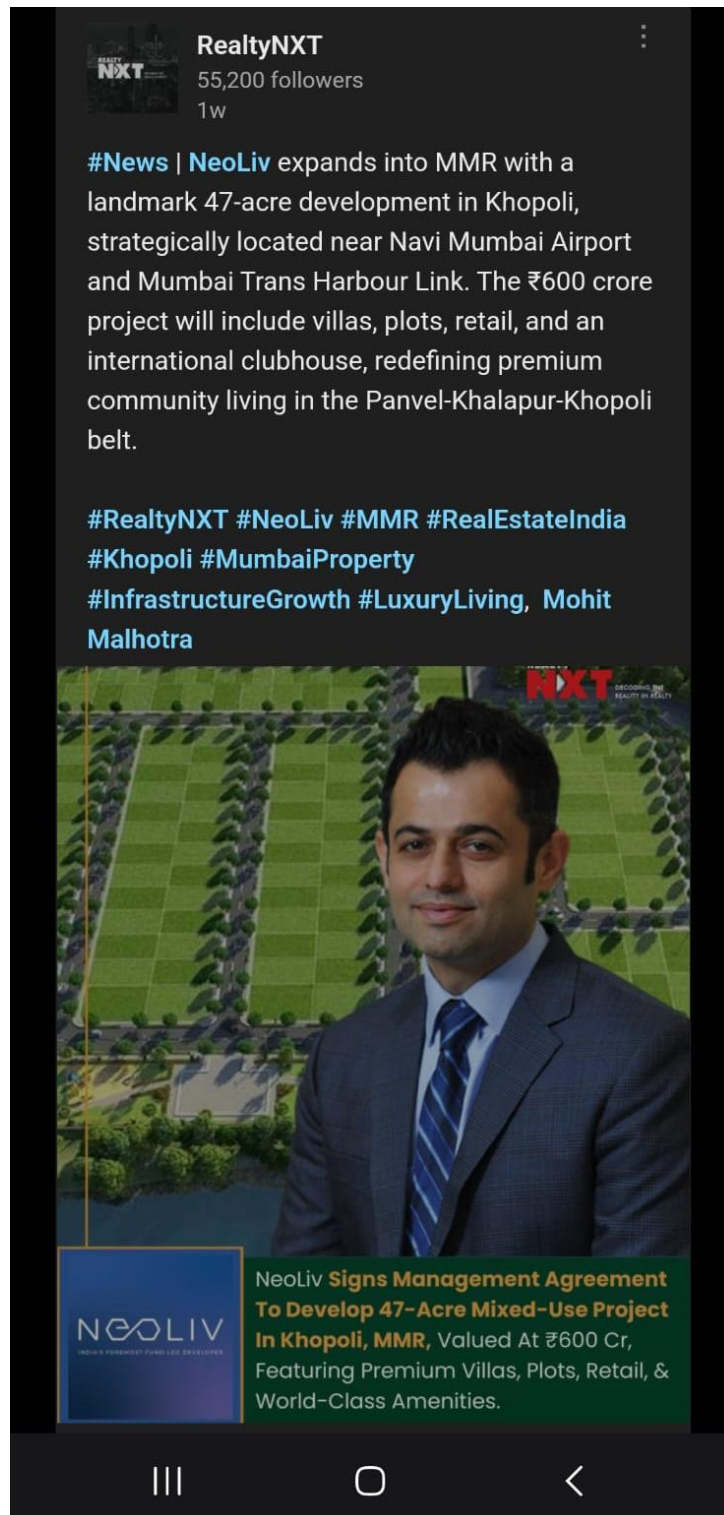

The mixed-use villa project aims to offer a comprehensive living experience, combining residential spaces with retail convenience and leisure facilities. The inclusion of premium villas and plots alongside thematic amenities aligns with current market trends that emphasize lifestyle-driven residential projects.

Industry analysts note that developers are increasingly exploring micro-markets like Khopoli due to relatively lower land costs compared to central Mumbai locations, alongside growing infrastructure connectivity. These factors have made such areas attractive for high-value residential projects catering to investors and homebuyers seeking long-term capital appreciation.
